SUSTAINABLE DEVELOPMENT GOALS

The United Nations' sustainable development goals, that all UN member states have agreed to achieve, are designed to serve as a shared blueprint for peace and prosperity for people and the planet now and into the future.

The SDGs are a collection of 17 interlinked goals that, with 169 sub-goals, form a coherent national and international whole.

Hornafjörður's strategy is based on these goals as well as the risk and importance analysis carried out for the municipality. Eleven sustainable development goals are emphasized and linked to the three main focus areas of the policy.

FUTRUE VISION

The municipality is a desirable and family-friendly living option that people want to visit. Humanity and quality of life flourish in harmony with the environment and nature. People have equal opportunities in a welfare society and the service is excellent. Culture is alive and powerful innovation is present.

VALUE

RESPECT

We respect each other and have respect for the diversity of the society. We also respect the environment we live in.

PROGRESS

We face the future with confidence, initiative and innovation. We have courage to look for new solutions both in business life and in education.

COLLABORATION

We emphasize cooperation, solidarity and positivity in all our work as we know that together we are stronger.

PILLARS

ENVIRONMENT

The municipality works to integrate environmental sustainability and climate actions into all municipal operations. This includes cross-sectoral collaboration, policy development and the implementation of actions related to waste management, energy, transport, planning and waste.

PEOPLE

Focuses on the well-being of residents and their social environment, which support health, equality and a good quality of life.

SERVICE

Addresses the municipality's services, both internal and external. Good governance, communication, digital solutions and progress for the benefit of the community.

ENVIRONMENT

The municipality works to integrate environmental sustainability and climate actions into all municipal operations. This includes cross-sectoral collaboration, policy development and the implementation of actions related to waste management, energy, transport, planning and waste.

FOCUS

LEADER IN ENVIRONMENTAL AND CLIMATE MATTERS

The municipality will place environmental issues at the forefront, guided by sustainability, development, and environmental protection.

GOALS

A SUSTAINABLE AND ENVIRONMENTALLY RESPONSIBLE COMMUNITY

- Strengthen the circular economy and reduce waste.
- Ensure responsible waste management.
- Protect and enhance nature, biodiversity, and outdoor recreation areas.
- A safe, clean, and healthy environment.
- Sustainable planning and infrastructure development.

PEOPLE

Focuses on the well-being of residents and their social environment, which support health, equality and a good quality of life.

FOCUS

A SOCIETY OF WELFARE AND EQUALITY

We want to build a welfare society guided by equality, health, and inclusion.

GOALS

A LEADING WELFARE SOCIETY THAT ENSURES INCLUSION, EQUALITY, AND A HIGH QUALITY OF LIFE

- Support health and well-being for all throughout life.
- Policies and strategies of the municipality promote equality and fairness.
- Strengthen internal and quality evaluation in education, leisure, and welfare services.
- Strengthen the municipality as a multicultural society and foster inclusion.
- Model housing and environments for schools, leisure, and welfare services.

SERVICE

Addresses the municipality's services, both internal and external. Good governance, communication, digital solutions and progress for the benefit of the community.

FOCUS

TRANSPARENT AND ACCESSIBLE GOVERNANCE

Increase quality, efficiency, and access to municipal services through professional and user-oriented services, where reliable information is a priority.

GOALS

MUNICIPAL SERVICES ARE RESPONSIBLE AND EFFICIENT

- Clear, accessible, and transparent information sharing and communication
- Professionalism and service mindset in service delivery
- Well-being and satisfaction of employees
- Efficiency and digital transformation
